### Stamibio® Beauty

Specific dermocosmetic formulation with:

**Roe Extract:** selected protein fractions from zebra fish eggs; a great number of research studies have shown its re-epithelizing, anti-aging and rebalancing properties of the regenerative processes of skin.

**Bio-Plex RNA:** natural active ingredient rich in nucleic acids. It helps the regenerative processes of skin.

**Coenzyme Q10 (Ubiquinone):** it helps cellular metabolism by counteracting skin aging processes.

**Jojoba Oil:** very pure and non-greasy oil. For its high affinity with the composition of the skin, it is easily absorbed in the deepest layers, where it helps stimulate the natural production of collagen and elastin.

**Rhodiola rosea** and **Theobroma cacao:** their natural antioxidant properties help to counteract the skin aging processes.

**Ginseng, Guaranà, Maca, Hops:** help to restore vitality and radiance even to tired skins that lack in tone.

**Oenothera biennis:** its very pure vegetable oil has strong moisturizing, nourishing and skin replenishing properties.

**Manganese, Copper, Iron, Zinc, Magnesium:** highly biocompatible and well-balanced, essential for the process of repair and renewal of cells. They help to restore skin elasticity and tone.
