Natur 1 Ovules

The Homeopathic Response to Vaginal Inflammation

Description

Natur 1 is the homeopathic remedy for vaginal inflammation, gynaecologically studied according to the principles of **P.N.E.I.** (Psycho-Neuro-Endocrine-Immunological). The formulation has been specifically designed for **female genital problems**, in particular inflammation. It is therefore recommended in cases of:

- **Itching vulva, vaginal discharge, fluor albus**
- **Vaginitis caused by Candida Albicans, Trichomoniasis, Gardnerella vaginalis**
- **Viral vaginitis**
- **Allergic vaginitis (soaps, deodorants, hair removal cream, condoms)**
- **Herpetic vaginitis**
- **Papillomavirus lesions, warts**
- **Post menopausal atrophic vaginitis (in conjunction with Natur 2 cream)**
- **Post actinic vaginitis**

Composition

Ovules: Calendula D4, Propolis D4, Vincetoxicum D6, Helonias dioica D6, Kreosotum D4, Hydrastis D6, Psorinum D10, Candida Albicans D30

Indications

Vaginal discharge and fluor albas; bacterial, viral, allergic and aspecific vaginitis; Trichomoniasis, Candida albicans; Gardnerella vaginalis; post menopausal atrophic vaginitis; post actinic vaginitis; Papillomavirus lesions; warts and herpetic vaginitis.

Dosage

1 vaginal ovule morning and evening for 2 weeks. Continue with one vaginal ovule in the evening.

Contents

14 vaginal suppositories 2.0g each

Natur 1

Helonias dioica D6
Inflammation of the female genitalia

Hydrastis D6
Inflammatory mucosal reaction (catarrhal, thick, yellow, stringy discharge)

Kreosotum D4
Inflammatory mucosal reaction (itching vulva, smelly discharge)

Anti-Inflammatory Action

Immunostimulating Action

Activates Soothing and Healing

Calendula D4
Anti-inflammatory action. Stimulation of granulation tissue

Vincetoxicum D6
Enhances the non-specific immune system

Psorinum D10
Nosode for diseases affecting the mucous membranes. Halts the structuring of disease and tendency towards becoming chronic

Candida albicans D30
Strengthens the immune system specifically related to Candida

Propolis D4
Strengthens the non-specific immune system

Mechanisms of Action

- Modulation of inflammation localized to the vaginal mucosa
- Reduces secretions
- Strengthens the non-specific immune system
- Strengthens the immune system specific to Candida (Monilia Albans)
- Soothing and healing

Fields of Application

GYNAECOLOGY

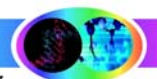

- Treats inflammation and the cause of infection, but not at the expense of vaginal mucosa
- Local treatment of Candida infections (Monilia albicans)
