

Omeoformula® 5

sterile ampoules/vials

Venous insufficiency & Swollen legs

CAUSES AND CONSEQUENCES OF VENOUS INSUFFICIENCY

Description

Omeoformula® 5 includes various components helping act specifically against venous insufficiency and blood vessel problems.

Omeoformula® 5 ingredients: Arnica, Aesculus, Hamamelis, Solidago, Urtica, act synergistically to help improve the vascular tone and stabilize the permeability of blood vessels by promoting venous return. These ingredients and Tabacum help to improve the blood circulation. Collagen helps strengthen the blood vessel structure and counteract aging. Solidago also helps reduce leg swelling caused by inflammation.

The properties and the synergistic action of Omeoformula® 5 ingredients make it useful in the cosmetic supportive treatment of venous insufficiency and its relevant consequences (leg swelling and heavy legs).
